

Automated Access Control System - Transition: Phone Line @ Website

During this transition process from using hang tags to access cards, the employee parking phone line (424-273-7266) has been extremely busy and we understand that it's been difficult to get through. The website (<http://parkingabm.com>) is also currently down as it prepares to accept online payments.

To address these temporary issues:

- 1) Please email parking@lawa.org if you have any questions or issues with employee parking if you cannot get through to the parking operator via phone. We will respond as soon as possible.
- 2) For submitting an application, if the website is down, please email parking@lawa.org and we will email an application to you. Once filled out, please email it to LAXEmployeeParking@abm.com.

REMEMBER:

- All employees must fill out an application in order to receive an access card.
- If you have previously submitted an employee parking application via online or email, you may pick up your access cards at the employee parking office in Lot East upon showing your employer badge ID.
- We anticipate April 2016 to be the last month for purchasing hang tags.
- Monthly parking will only be sold to badged, currently employed LAX employees. **Contractors are not allowed to park in these remote employee lots.**
