

LAX

Los Angeles World Airports

Noise Alert

Issue Date: 10/4/2017

LOS ANGELES INTERNATIONAL AIRPORT (LAX)
NORTH COMPLEX OUTBOARD RUNWAY 24R/6L CLOSURE
October 9, 2017 to November 7, 2017
30-Day Closure

Starting Monday, October 9, 2017 at 12:01 a.m., Los Angeles World Airports will close outboard runway 24R/6L on the north runway complex for runway repair. This work is necessary to ensure that the airport continues to meet minimum safety requirements. Runway 24R/6L is scheduled to close continuously for 30 days from October 9th through November 7th.

Persons living near LAX may notice a change in aircraft flight activity and noise during the closure of Runway 24R/6L as aircraft that normally land on the north outboard runway (24R/6L) will instead land on the north inboard runway (24L/6R). In addition, with only one runway (24L/6R) available for landing and takeoff on the north complex during this closure, go-around operations may increase and some aircraft operations may shift from the north to the south runway complex.

Thank you for your understanding and patience during this 30-day closure.
